Prestige Series Locomotive

Museum
quality
die-cast
metal

Sound
Included
(Dual Speakers)

Big Boy Locomotive Features:

- ★ Highly detailed die-cast metal construction
- ★ Dual operating smoke stacks
- ★ Digital Sound System with dual speakers in smokebox (one speaker for each set of drivers)
- ★ DCC Ready
- ★ Start up delay circuit that allows sound and smoke units to activate prior to movement of locomotive
- ★ Operating headlight and cab light
- ★ Illuminated marker lights
- ★ Hidden front coupler
- ★ Die-cast drivers with Stainless steel rims
- ★ Roller bearing drive axles
- ★ Metal drive rods
- ★ Drawbar coupling between locomotive and tender
- ★ Highly detailed metal piping
- ★ Separately cast metal detail parts
- ★ Metal handrails
- ★ Brass bell
- ★ Brass whistle
- ★ Lighted firebox and ash pan glow
- ★ Detailed builders plate
- ★ Individual wooden shipping box for locomotive and tender
- ★ Overall Length of Big Boy Locomotive & Tender is 57"

Big Boy Tender Features:

- ★ Highly detailed die-cast metal construction including detailed coal bin with stoker
- ★ Operating backup light on tender
- ★ "Real" coal load
- ★ Illuminated marker lights
- ★ Separately cast metal parts
- ★ Opening hatches
- ★ Operating coupler lift bar

J1e Hudson Locomotive Features:

- ★ Highly detailed die-cast metal construction
 - ★ Digital Sound System included
 - ★ Operating smoke stack and booster exhaust stack
 - ★ Operating headlight & cab light
 - ★ Illuminated marker lights
 - ★ Working drop coupler (front)
 - ★ Die-cast spoked drivers with stainless steel rims
 - ★ Roller bearing drive axles
 - ★ Metal drive rods
 - ★ Die-Cast metal sprung booster truck
 - ★ Drawbar coupling between locomotive and tender
 - ★ Highly detailed metal piping
 - ★ Separately cast metal detail parts
 - ★ Metal hand rails
 - ★ Brass bell
 - ★ Brass whistle
 - ★ Lighted firebox and ash pan glow
 - ★ Detailed builders plate
 - ★ Wooden shipping box
- Overall length of Hudson Locomotive and Tender is 40 1/2 "

J1e Hudson Tender Features:

- ★ Highly detailed die-cast metal construction including detailed coal bin with stoker
- ★ "Real" coal load
- ★ Operating back-up light on tender
- ★ Illuminated marker lights
- ★ Die-cast 6 wheel sprung trucks with safety chains
- ★ Separately cast metal parts including water scoop and brake cylinder
- ★ Operating coupler lift bar

Dear Customer,

The people at USA Trains would like to thank you for your support and for making us the leading manufacturer of American Prototype G Scale Model Trains. We have worked hard over the past 24 years to manufacture reliable, highly detailed American Prototype Models that will provide you with many hours of enjoyment.

As you read through this catalog, you will see the largest selection of American Prototypes. There are thirteen different locomotive prototypes ranging from the Steam Era to the Modern SD70 MAC Diesel Locomotive. To complement these locomotives, forty five different styles of Rolling Stock are featured in the catalog. Each of these contain a variety of popular road names as well as multiple road numbers providing a good selection of items for every model railroader.

This year, we have once again added new items to our line – the Bi-Level Auto Carrier, the 29 Foot Beer Can Tank Car, the 42 Foot Modern Tank Car, and the 60 Foot Cushioned Coupler Box Car. All are additions to our popular Ultimate Series Line and will be highly detailed models. The Bi-Level Auto Carrier will be one of the largest pieces of rolling stock ever made measuring 36 3/4" and will feature "see-thru" side panels, opening end doors, and die-cast metal sprung trucks with spinning wheel journals. The 29 Foot Beer Can Tank Car is a "cute" little tank car that can run on any layout, but don't let its small size fool you. It is all metal - aluminum body and die-cast metal trucks - with plenty of detail including opening roof hatches with valve detail, die-cast metal end platforms with "real" metal walkways, and spinning wheel journals on the trucks. There are 25 different road names to choose from. The 42 Foot Modern Tank Car is similar to the Beer Can Tank Car except that is 17 3/8" long. It has the same high level of detail and there are 17 different road names to choose from. You can mix in the 29 Foot Beer Can Tank Car, the 42 Foot Modern Tank Car and the 55 Foot Modern Tank Car to make a nice consist.

During the year, we shipped our new 60 Foot Cushioned Coupler Box Car and have received many positive comments from our customers - looks like another "hit." These highly detailed box cars feature a newly designed "Cushioned Coupler" to simulate the unique feature of the "real" train car. The coupler is designed to "compress" to "cushion" the load as trains are coupled together. It also features die-cast metal trucks with spinning wheel journals, operating sliding doors in two prototypical styles, and full underbody detail. There are 33 road names to choose from - all available with multiple road numbers.

This catalog also features new paint schemes on previously introduced models such as our new Christmas Series items for 2011/2012. Our new 2011 Christmas Reefer and Christmas 29 Foot Beer Can Tank Car features colorful artwork and would look great behind one of our Christmas locomotives chugging around your Christmas tree. The Two Tier Auto Carrier now has a plaque on the side with a map of the railroad line - very colorful. Whether you have an outdoor or indoor layout, our Billboard Reefer Series has many colorful "Billboard Designs" that will add color to any railroad. This series is where it all began at USA Trains - we have produced over 400 different designs. There are more American Style G-Scale products pictured in this catalog than shown by any other manufacturer. There is something for everyone.

We would like to thank those of you who wrote to us with new product ideas. As a result, we have developed the products shown in this catalog and have a few new surprise products which we can not announce yet. We are committed to bringing you the scale models you want at a reasonable price.

Once again, I want to thank you for your support and feedback. I hope all the hard work and determination that the people at USA Trains put into our products will add to your appreciation of USA Trains and your enjoyment of G Scale Model Trains.

Regards,

Charles Ro, Jr.
